

D-BOARD® Accessories

REINFORCE YOUR DESIGN

Screws, corner lock and hanging plug

Edgebandings

Different applications

D-Board® accessories

D-Board® is a very rigid and versatile material that can be used as construction board for virtually all interior surfaces and designs. In the majority of applications Eltete Décor and L-profiles, edging and glue or tape are enough for durable and light constructions.

In some applications, however, the use of special accessories might be necessary to obtain best possible results. For these applications we offer a full range of corner locks and plastic screws.

D-Board® accessories will help you to create durable, beautifully finished constructions.

Product data sheet:

Name	Size (mm)	Color	Applications
Edgebanding	10, 16	Red, black, green, brown, white	To cover edges of 10 and 16mm D-board
