

Décor Profile

100% RECYCLABLE PROFILES

Stock colors are black and white

Other colors available upon request

D-Board® and Décor profiles

Construction made of D-Board®

Eco-friendly throughout the life cycle

Eltete Décor profiles are made of carton. With these 100% recyclable profiles it is possible to design and construct very light but truly rigid 3D designs out of different kind of boards. By using these profiles you can achieve not only a good appearance but protection for your design as well.

Décor profiles are available in different shapes and are mainly for indoor use. Standard colours are white and black. Other colors are available upon request.

D-Board® with Décor profiles is a unique concept that opens up countless new possibilities for designers seeking light eco-friendly multi-purpose, durable constructions that are still for long term use and are still 100% recyclable.
